

Positive Women

Support and advocacy for women living with HIV

Advancing the Agenda 2014

National conference for women with HIV

Sunday 23rd - Monday 24th March 2014 Melbourne

Advancing the Agenda is the fourth national conference run for and by women living with HIV (WLWHIV) in Australia.

The conference will bring together WLWHIV from across the country to celebrate our history and achievements, explore advocacy issues and to get ready for the International AIDS Conference 2014.

A national WLWHIV working group is working with Positive Women Victoria to develop a conference that will represent our diversity and experiences, and enhance the future direction of the WLWHIV community.

Come and meet other women...

- celebrate our history
- get new health information
- develop a national action plan for WLWHIV
- get involved with the International AIDS Conference 2014

Positive Women Victoria will provide full scholarships for women living with HIV to attend the national conference.

The conference has also been designed to ensure that attendees' privacy will be considered at all times.

Call for papers

WLWHIV are strongly encouraged to present at the conference. Presentation categories include HIV and health; HIV, relationships and disclosure and HIV advocacy. You do not have to be an expert. You can present on lived experiences, research or your work or volunteering experiences. The call for papers closes on the **10th January 2014**. To apply to present at the conference go to:

www.surveymonkey.com/s/Advancingtheagendacallforpapers2014 or contact PWV for a call for papers registration form:

P: (03) 9863 8747

E: nationalconference@positivewomen.org.au
